Sneak "F.E.P.C." Imposed By Jews On U.S. Industry

LOS ANGELES—The "President's Committee on Government Contracts" has chosen Los Angeles as the site of its second branch office outside of Washington, D.C. (Chicago was the first) in what appears to be a major effort to coerce western business firms into a mass mongrelization program. The so-called President's Committee, of which vice-president Nixon is the titular head, was established in 1953 by Mr. Eisenhower for the avowed purpose of imposing a sneak "FEPC" upon American labor and industry through control of government contracts. The Committee, whose executive secretary (and real boss) is the Jew, Jacob Seidenberg, utilizes the threat of canceled government contracts as a lever to force private business concerns to hire Negroes and other "minorities." Business firms failing to employ (or promote) their prescribed quota of Negroes are threatened with the possible loss or cancellation of government orders. . . .

Southern Editor Flays News Censorship

CHICAGO—In Chicago last month a Southern newspaper editor, Grover C. Hall of the Montgomery (Ala.) Advertiser, delivered a talk before the annual meeting of the Inland Daily Press Association which few if any of his Negro-coddling audience will ever forget—even if most of them did see fit to censor it in their own newspapers. Editor Hall pulled no punches in laying the race situation squarely on the line.

"I'm pleased to come to Chicago to discuss the grievous race problem of the South—the South Side of Chicago, where more Americans are in immediate physical danger because of race strife than in all the Southern states together," the

MONTGOMERY — The NAACP's grandiose scheme to register an additional million Negro voters in 11 Southern states (double the present figure) has stalled, according to an Associated Press survey. The drive, which is headed by the Negro bus boycott leader, Martin Luther King, got off to a big start with rallies in 21 key Southern cities last month. Since then, the AP report shows, Negro registrations have either declined or remained stationary in virtually all the Southern states. In Montgomery, headquarters of the drive, registrations fell below normal.

Methodists "Integrate"

LOS ANGELES—Some 393 delegates to a three-day Methodist "Conference on Human Relations" meeting in Los Angeles last month endorsed a resolution urging the appointment of colored ministers to white congregations in Southern California as an "experiment." The recommendation was made to Bishop Gerald Kennedy, who last year created a raging controversy in California church circles when he appointed a Negro preacher to head the all-white Normandie Ave. Methodist church in Los Angeles. That appointment, which was made without the prior knowledge of the congregation, resulted in the mass walk-out and resignation of the entire membership, some of whom had belonged to the church for over 30 years . . .

Roosevelt Bill Would Use American Treasury Funds To Purchase Israeli Gov't. Bonds To Satisfy Jew Voters

WASHINGTON, D.C.—Last month slimy, slippery Jimmy Roosevelt, who easily qualifies as the most despicable member of the U.S. House of Representatives, issued forth with two pronouncements which could not fail to endear him with his Jewish and Negro constituents in California's mongrelized 26th Congressional district. In fact, Jimmy's sudden burst of energy would almost lead to the suspicion that he has already begun his campaign for re-election to Congress . . .

Plan for US to Buy 60 Million In Israel Bonds

WASHINGTON, D. C. (NJP) Congressman James Roosevelt (D., Cal.), this week introduced a joint resolution to authorize the Secretary of the Treasury to purchase $60 million in State of Israel Bonds for investment by the federal government trust fund.

The above clipping, taken from the NATIONAL JEWISH POST, describes Jimmy Roosevelt's scheme to purchase $60 million dollars worth of Israeli government bonds with U.S. Treasury funds.

What Jimmy did was to deliver a speech in Washington, D.C. in which he demanded that Eisenhower call an emergency conference to solve the integration crisis in Virginia, which he predicted

Anti-Defamation League In Anti-Semitic Scare

SPECIAL—For years the Anti-Defamation League (ADL), the well financed propaganda arm of the B'nai B'rith, has wept and moaned over the alleged "discrimination" practiced by U.S. medical schools against Jewish students. Last month the Jewish syndicated columnist, Boris Smolar, published the results of a nation-wide survey conducted by the ADL on the situation. The survey showed, according to Smolar, that 70% of all the medical students in New York University's medical schools were Jews, and that Jews constituted 32% of the medical school enrollment in New York, New Jersey, Pennsylvania and Maryland. In the New England states of Massachusetts, Vermont and Connecticut 29.7% of the students were Jews . . .

Despite these findings the Anti-Defamation League shrilly complained that one New York medical school (Cornell) was discriminating against Jews—because only 18% of the enrollment was Jewish!

NOTE: Although the ADL's claim that Jews are "discriminated" against by U.S. medical schools is patently a fraud, a constant harping upon the theme does serve a useful propaganda purpose, for it tends to draw attention away from the fact that Jews have almost completely taken over and commercialized the American medical profession—even to the extent of running the American Medical Association (AMA), whose president, David Allman, is Jewish. It's a very clever and useful propaganda trick and the Gentiles almost never seem to catch on . . .

Wall Street Journal Exposes Racial Scandal In N.Y. Schools

NEW YORK CITY—Perhaps it is because New York City is infested with more than its share of Jews, Puerto Ricans, Negroes and assorted aliens of every description, or perhaps it is simply because all the important nationwide news media (i.e. the wire services, publishing houses, TV nets, etc.) are centered there, but whatever the cause it is an indisputable fact that more race mixing propaganda emanates from there than any other place in America. New York is, literally, the fountainhead from whence flows a veritable hate barrage of anti-Southern, anti-white, pro-Negro and pro-integration propaganda. Whether it is an Emmett Till case in Mississippi, a bus boycott in Montgomery, a fist fight in Clinton, Tennessee or a student fracus in Little Rock, the New York controlled press is Johnny-on-the-spot with news coverage which without fail is slanted to favor Negroes, defame whites and advance the cause of racial integration in the schools. New Jenner Bill Would Curb Supreme Court

WASHINGTON, D.C.—The commercial press has in general played the story down, but a highly significant and potentially far reaching move is under way in Congress to curb the Warren-Frankfurter dominated Supreme Court. Instigator of the strategy, strangely enough, is not a Southerner but a northern Republican—Wm. Jenner of Indiana. Senator Jenner is sponsoring a measure which, if adopted, would restrict the Supreme Court's actions in a number of important areas. Specifically, he would strip the Court of its self-assumed prerogative of interfering with Congressional investigations through abuse of its review authority. Other provisions of the bill would deny the Court review jurisdiction over the U.S. security program for Federal employes, and over state laws dealing with subversion.

WM. JENNER

The bill may or may not pass, but the very fact it has been proposed points up a highly significant if often overlooked fact: in a showdown Congress can strip the Supreme Court of virtually all the dictatorial powers it has usurped over the past five years. And in view of the Court's disgraceful partiality toward the NAACP, the Communist Party and various other subversive groups and activities, it is perhaps time Congress began exercising its Constitutional power to bring Messrs. Warren, Frankfurter, Douglas et al into line . . .

As a starter Senator Jenner's bill to curtail the Supreme Court's review authority is certainly a step in the right direction.

N.Y. SCHOOLS

(Continued From Page 1)

Southern racial "prejudice" is too trivial to report if it serves as good pro-integration propaganda.

But although the Associated Press (AP), International News Service (INS) and United Press (UP) all have their headquarters in New York City (as do the major TV networks, NBC, CBS and ABC) they have displayed a singular reticence in publishing or reporting news about the race picture in their own bailiwick.

Thus, while a name-calling incident between Negro and white students in Little Rock makes the national news, the rape of a little white girl by a Negro "classmate" in one of New York's integrated schools is hardly mentioned. Race conflict, you are led to believe, is always a Southern monopoly. Even when conditions got so bad in NYC's integrated school system that armed, uniformed policemen had to be permanently stationed on the schoolyards to protect white pupils from a terror-wave of rapes, robberies, knifings and other Negro violence, it was either explained away with gentle understanding—or else ignored completely.

In recent weeks, however, this hypocritical distortion and censorship has been breaking down, at least in places, under the pressure of outraged public opinion. One New York publication which dared to briefly breach the wall of censorship to reveal conditions in New York schools for what they are was the WALL STREET JOURNAL, which in its Feb. 11th issue carried a story entitled: **"Crisis In New York."**

"The issues involved," said the JOURNAL, **"go beyond those of crime and hoodlumism. For one thing, the highly sensitive race issue is of importance because many school people say discipline has deteriorated most in areas of Negro concentration."**

These so-called **"areas of Negro concentration,"** the JOURNAL noted, are increasing phenomenally. Since 1950 the white population of NYC has declined by 700,000, while 600,000 Negroes and Puerto Ricans have moved in. As a result, observed the WALL STREET JOURNAL, **"New York school authorities have encountered increasing difficulties in staffing Negro-dominated schools. Several months ago Supt. of Schools Wm. Jansen sent out appeals to the city's 40,000 teachers for volunteers to staff 'difficult schools'—many of which are in all-Negro neighborhoods. Some officials say he got 25 replies—some say 40" . . .**

"One young teacher who volunteered for duty in Harlem," continued the JOURNAL, **"is attractive, blond Judy Polgar, 22, who trained for her job at Yale University where she received an M.A. During her first week on the job she was told the ground rules: Never walk down the back stairs alone, don't stay in school after 4 p.m., carry a ruler for protection, if possible don't go to the ladies room unaccompanied. On her third day of duty she watched in amazement as several of the junior high school girls in her class assaulted a policeman outside the school. There were 34 in my class, eight of whom were impossible to control. They screamed, threw things, one girl hit me, one boy stole my wallet. Only 30% to 40% of them lived with both mother and father. The rest either lived with a relative or with one parent.' After two months at her 97% Negro school, Miss Polgar resigned" . . .**

That is the picture of New York City schools as revealed by the WALL STREET JOURNAL.

Hollywood

Emboldened by past successes the Hollywood motion picture industry, which with an occasional exception is a Jewish monopoly, will produce a record breaking quota of propaganda films this year. Here is a rundown on some of the more blatant and offensive ones scheduled for release during 1958:

THE YOUNG LIONS (20th Century Fox), based upon a story by the Jewish playwrite, Irwin Shaw, stars Marlon Brando, Montgomery Clift and Dean Martin. As you might anticipate, both the producer (Al Lichtman) and the director (Edward Dmytryk) are Jews. The picture is all about "Nazi" concentration camps in Germany and anti-Semitic discrimination against heroic Jewish soldiers in the U.S. Army. In other words, the Jews are being "persecuted" not only by the wicked "Nazis,"

Symbolic of the degenerate state of affairs in our alien controlled motion picture and entertainment industry are these simpering white chorus girls fawning upon spoiled, petulant Negro actor, Sammy Davis, who incidentally was married shortly after the picture was taken. Sammy's marriage was well covered by the Negro press. "Few marriages since Edward VIII forsook the British throne for Wally Simpson have so intrigued the public," raved one Negro magazine (EBONY). "For five-foot-six, 122 pound Sammy has been linked — sometimes rightly, often wrongly — with a procession of glamorous women, including actress Ava Gardner, ingenue Meg Myles, model Cordie King, enchantress Eartha Kitt, and last but not least, movie star Kim Novak" . . .

By the way, one of Sammy's white girl friends mentioned by EBONY (Ava Gardner) is the wife of Frank Sinatra, who is currently co-producing and acting in the inter-racial film, "KINGS GO FORTH."

but also by the Americans. Basically, though, this is another hate film against the German people, with the Jews suffering tear-wringing "persecutions" from every quarter. Incidentally, the Yiddish author of this opus, Irwin Shaw, has a long and odious record of Communist-front affiliations — 6 citations, to be exact. And the film's director, Edward Dmytryk, is one of the infamous "Hollywood Ten" sentenced to prison in 1950 for Communist activity . . .

I ACCUSE (MGM) is another mournful propaganda recital of Jewish suffering and persecution. This time the picture is based upon the Dreyfus case — a story Jewish propagandists never tire of telling. As a matter of fact, this is the SIXTH time a film (under various titles) has been produced on the subject. Playing the role of the brave, persecuted Jewish Captain Dreyfus is actor Jose Ferrer, who also directs the picture (Ferrer is Jewish, of course). Typically, I ACCUSE is full of subtle preachments against "anti-Semitism," and as you might also guess, manages to inject the usual anti-German propaganda into the story (the Germans, it seems, "corrupted" the French general staff, which led to the framing of honest, patriotic Captain Dreyfus, etc., etc., ad nauseum) . . .

THE DIARY OF ANNE FRANK, now in production, is by far the most ballyhooed of all the propaganda pictures scheduled for this year. Based on the stage play by the same name, DIARY OF ANNE FRANK is a tearful tale of fiction about a Jewish girl in Holland who is brutally carried off at the end of the picture to die a martyr's death in a "Nazi

NAACP Holds Annual Meeting In New York

NEW YORK—At its 49th annual meeting, held earlier this year in New York City, the National Association for the Advancement of Colored People (NAACP) hailed two developments as its "top achievements in civil rights" during 1957. One was the dispatch of Federal troops to Little Rock, Arkansas to enforce racial integration. The other was the enactment of the so-called Civil Rights Act of 1957.

The 49th annual meeting, presided over by NAACP president, Arthur B. Spingarn (who incidentally is Jewish, not Negro) also heard a report by executive secretary, Roy Wilkins, to the effect that the organization's income during 1957 had reached an all time high of $967,838.88 despite a decline in membership.

In his report Wilkins paid special "tribute" to: 1) the nine Negro pupils enrolled in Little Rock's Central High school; 2) to NAACP agitator and board member, Daisy Bates, who enrolled them there; 3) to Jackie Robinson, chairman of the NAACP "Freedom Fund Drive"; 4) to Kivie Kaplan, Jewish head of the NAACP "Life Membership Drive" which raised $181,891.00 for the association in 1957.

Shown congratulating the negress, Daisy Bates, whose enrollment of nine Negro pupils in the all-white Central High school precipitated the military occupation of Little Rock last year, is Herbert Lehman of New York. Lehman, a former U.S. Senator and one of the most powerful Jews in America, is a member of the NAACP board of directors, as is Daisy Bates. It is significant to note that the longtime president of the NAACP, Arthur B. Spingarn, is also Jewish.

Israel Denounced As Parasite Nation

Mistreatment Of Arabs Is Also Condemned

SPECIAL—From the hour of its founding the Jewish state of Israel has been in fact and in practice a parasitic institution feeding upon the wealth of other nations and peoples. It began its existence in 1948 by brutally dispossessing the native Arabs of Palestine, numbering approximately 880,000 souls, to make room for the immigrant Jews who now constitute the Israeli population. Having seized the land, farms, stores, homes, cities and other possessions of the Palestinian Arabs, and having driven them into the desert (where most of them still remain destitute in miserable refugee camps), Israel's Jews began their much touted development of Palestine into a Jewish homeland.

These are Arab refugees from Jewish terror. They were among the 880,000 Arab men, women and children driven from their ancestral homes and farms by the newly created state of Israel to make room for the hordes of immigrant Jews who took over Palestine (now Israel) in 1948. The irony of the situation is that these Arabs, and their ancestors for hundreds of years before them, were native-born residents while only a tiny fraction of the Jews who drove them out were actually born in Israel.

This is probably the first time in history in which the entire population of a civilized country has been displaced and dispossessed to make room for the alien newcomers. And for many of the Arab refugees the bitterness is all the more intense because they can look across the border into Israel and see their former homes and farms occupied by Jews. . . . The refugees shown above, luckier than most, are housed and fed by the United Nations — mostly with funds supplied by American taxpayers.

PARASITE NATION

To finance the country's development, and to defray the cost of colonizing hundreds of thousands of European, African and Asiatic Jews upon Palestinian (now Israeli) soil, Israel's Jews obviously needed Gentile money and lots of it. Out of that need began Israel's role as a parasite among nations.

It is impossible to calculate the total amount of foreign money piped into Israel since 1948, but it has unquestionably been a fantastic sum for a country of its size and population. In the main this money has come from two sources: the United States and West Germany. Between them these two countries have been bled of literally billions of dollars to sustain the deficit (which is to say, the parasitic) Israeli economy.

While no complete figures are available as to the total Jewish take in the U.S. to date, it is known that the principal sources of revenue have been the United Jewish Appeal (UJA), the Israel Bond Drive and, of course, the United States government and its agencies. From these three alone Jewry has raised many hundreds of millions of dollars over the last ten years, with United Jewish Appeal single handedly accounting for an estimated $1,100,000,000.00 of the total. It is also known that the U.S. government has granted in excess of $400,000,000.00 in loans, grants and credits to Israel since 1948, while more than $280,000,000.00 has been derived from the sale of Israeli bonds in the U.S.

In addition, large sums of Jewish capital investments have been poured into Israeli from the U.S. Numerous other Jewish fund-raising schemes have also swelled the total U.S. contribution to the support of Israel—most of it tax free.

GERMANY

But the flow of tax free American dollars to Israel, large as it is, is matched, if indeed it is not exceeded, by the money being extorted from West Germany. Beginning in 1951 the state of Israel, in conjunction with the World Jewish Congress and other international Jewish organizations, began what has turned out to be the greatest blackmail operation in all recorded history. In that year West Germany agreed to pay the state of Israel the sum of $715,000,000.00 in "reparations" for damages allegedly suffered by Germany's Jews prior to World War II. Since then Israel and world Jewry have succeeded in exacting, under one pretense or another, further agreements which are expected to ultimately yield Israel several billions of dollars more in tribute.

"REPARATIONS"

So incredibly large have these "reparation" payments become that today they represent a threat to the stability of the German deutschemark, heretofore regarded as one of the hardest and most stable currencies on the Continent. This latter point was brought to the world's attention recently when Germany's Justice Minister, Fritz Schaeffer, demanded that Germany's annual blackmail to Israel should be held down to a maximum of $250,000,000.00. Pointing out that at their present rate these "reparations" will eventually amount to $6,000,000,000.00, the West German official protested that if the payments continued to exceed $250,000,000.00 a year the entire German economy would be threatened . . .

None of these facts have, of course, been reported by the depraved, pressure-ridden American press, but they explain the real secret behind Israel's continued existence.

CONCLUSION: In evaluating Israel's position in the Middle East two salient factors stand out above all others:

1) Only a tiny fraction of Israel's present Jewish population is native born; the rest are immigrant intruders who were never born there and who do not belong there . . .

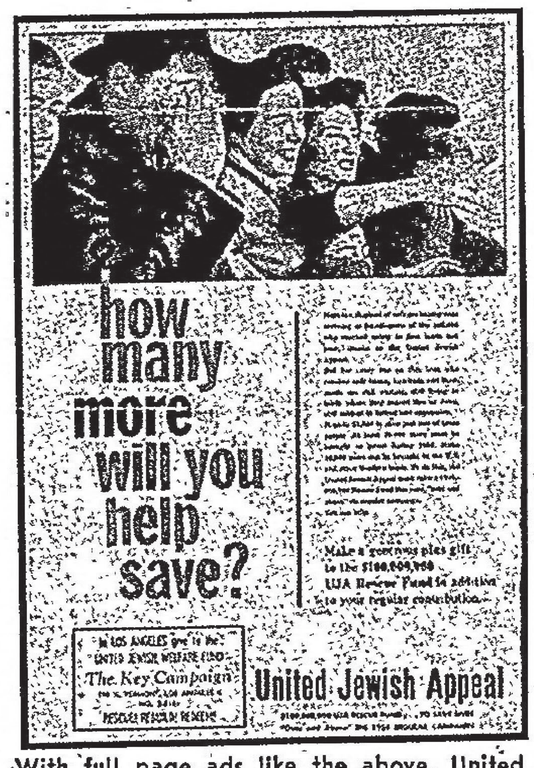
2) Without its two principal sources of outside income (i.e. Germany and the U.S.), Israel's Jews would have long ago relinquished Palestine to the Arabs and returned from whence they came—which is to say, from Europe, Africa, Asia and other points outside the Holy Land.

These conclusions strongly suggest that the surest way to insure peace and justice in the Middle East would be to cut off Israel's access to its German and American revenues, thereby leaving Israel's Jews to their own resources. As a step in that direction the U.S. Congress should, and ought to, take immediate measures to cut off the flow of American tax dollars to Israel, and to deprive Jewish fund-raising groups of their tax exempt status. The sale of Israeli bonds in this country should also be prohibited.

As for the blackmail being extorted from West Germany in the guise of "reparations": the single justification for these payments is that they constitute restitution to the Jews for having been driven out of Germany in 1932-39. But since coming to Palestine (now Israel) the Jews have brutally confiscated the property of the native Arab population of what is now Israel and deported them under circumstances which make Hitler's handling of Germany's Jews a pink tea party by comparison. Yet not a penny of reparations or compensation has been made to these dispossessed victims of Jewish fanaticism . . .

Thus, while organized Jewry continues to collect billions for its alleged persecution at the hands of the Germans, it pays out nothing except venomous hatred and abuse to the victims of its own brutality.

The obvious answer to the situation is the immediate curtailment of the multi-billion blackmail payments now being drained out of West Germany. It is high time Israel's role as a troublemaking parasite among nations was ended.



With full page ads like the above, United Jewish Appeal (UJA) last month launched its $100 million dollar "UJA Rescue Fund." As the ad indicates, this sum is "over and above" the regular UJA budget, which usually runs above $100 millions annually — meaning that this year's total take will probably exceed $200,000,000.00. The bulk of this money goes to support the state of Israel, and to pay for colonizing Jews from other countries there. Since 1948 UJA claims to have helped settle nearly a million Jews in Israel — at roughly $1000 a head. That figures out to nearly a billion U.S. tax-free dollars. . . .

ANTI-ZIONIST CRUSADER

Our readers are reminded that the great Admiral John G. Crommelin is conducting a valiant campaign for the governorship of Alabama on a forthright anti-Zionist and pro-American platform against very heavy opposition. Patriots wishing to support his campaign with letters of encouragement, or with contributions, are urged to write: Admiral John G. Crommelin, P. O. Box 441, Wetumpka, Alabama.

AMERICAN NATIONALIST

SNEAK F.E.P.C.

(Continued From Page 1)

1953 the AMERICAN NATIONALIST has hammered at the very obvious fact that the entire operation was the brainchild of the trouble-making Anti-Defamation League of B'nai B'rith (ADL) and other professional Jewish race-mixing organizations. Furthermore, there is little doubt that the decision to set up a west coast branch office of the Committee was also inspired by the Anti-Defamation League. This was confirmed by a Los Angeles dispatch which appeared last month in the NATIONAL JEWISH POST & OPINION, which began as follows:

"The nation's second regional office on government contracts will be established here as a result of a series of complaints on job discrimination made by the Southwest regional office of the Anti-Defamation League. The ADL's complaints, 202 in number, substantiated charges that many employers in the area were placing discriminatory job orders for workers on government contracts."

In short, the Jewish controlled "Committee on Government Contracts" is setting up shop in Los Angeles to accommodate the Anti-Defamation League of B'nai B'rith, which is brazenly using it as a cat's-paw to enforce its own vicious program of subversion and compulsory mongrelization upon American industry and labor.

SOUTHERN EDITOR

(Continued from Page 1)

Montgomery editor began.

"If you want to talk about blood spilled, skulls cracked, deceit practiced, evasion and defiance of the law on a grand scale—your dateline will be not Little Rock or Montgomery, but Chicago, Detroit, Philadelphia, New York," he said.

"A basic reason why the national debate on the race issue is so irrational," continued editor Hall, **"is the failure of the American press to report strife as eagerly and fully in the North as in the South. The otherwise virile Chicago press is joined with radio and TV in a formal code for muffling or suppressing spot coverage of race incidents . . . Your Illinois politicians caterwaul about Jim Crow in Montgomery, Ala., but grapple not with the fact that there is more residential segregation in Chicago than in Montgomery."**

SIDELIGHT:—For the benefit of those who might wonder why a Northern press association would condescend to hear a Southern newspaper man's views on the race question, it should be noted that editor Hall has a well deserved reputation in the South as a turncoat on the integration controversy. The pressure of public opinion and the prospect of an advertising boycott have, however, induced him to sing a somewhat different tune of late—to the chagrin of his northern hosts, who had obviously invited him to speak in anticipation of hearing a pro-integration speech delivered with a Southern accent . . .

Press Report

LOS ANGELES—Last month the commanding general of the Israeli Air Force, Dan Tokowsky, helped kick off this year's $100 million dollar United Jewish Appeal (UJA) fund drive with an address at the Hillcrest Country Club in Los Angeles. Sharing the platform with the Israeli air force head was Simon Ramo, described by the B'NAI B'RITH MESSENGER as the "chief scientist for the [U.S.] Air Force missile and space program." It is presumed that Mr. Ramo did not divulge any of this nation's vital defense secrets to his co-racist from Israel—but don't bet on it.

NEW YORK—Vice-President Nixon, who already holds an "honorary" membership in the odious NAACP, now enjoys a new distinction. He has accepted an honorary degree of "Doctor of Laws" from Yeshiva University in New York.

TEL AVIV—Menahem Begin, leader of Israel's third largest political party (the Herut) has created a furor in Israel by threatening to come to the U.S. to conduct a direct fund raising drive unless his organization receives a larger allotment from United Jewish Appeal. The Herut party leader is demanding a larger allocation to equal the $1,250,000 the Mizrachi party receives annually from UJA. (NOTE: Although your contribution to the Democratic or Republican party is NOT tax exempt, Jews in this country may, and do, subsidize the Herut, Mizrachi and other Israeli parties with tax-free dollars through United Jewish Appeal.)

NEW YORK—New York City's new "anti-bias" housing law went into effect April 1st with the hiring of thirty new employees to enforce the radical new measure. An estimated 1,700,000 housing units in the city are affected by the bill, which makes it a crime for home and apartment owners to refuse to rent to Negroes or other "minority" groups. The chairman of the "Intergroup Relations Committee," which will enforce the law, was quoted by the NEW YORK TIMES as asserting that . . . "the maximum penalty —a year in jail—would be sought in cases where the violation is clearly deliberate."

GERMANY—When the U.S. 10th Infantry Division returned from Germany last month to its base in Georgia, 60 colored soldiers married to white girls in Germany transferred from the division en masse. Last year a similar mass transferral occurred when the 2nd Armored Division returned to Ft. Hood, Texas from Germany. Reason for the transfers: Texas and Georgia authorities had promised to arrest the inter-racial couples the moment they ventured off military territory . . .

SPECIAL—The Negro magazine, JET, claims that 145 new segregation laws have been enacted in the 11 deep Southern states since the Supreme Court handed down its school de-segregation decree in May of 1954. JET also bemoans the fact that the NAACP has lost members in all the Southern states (except No. Carolina) during the past year.

ROOSEVELT BILL

(Continued From Page 1)

(probably accurately) would soon **"become another Little Rock."** Jimmy asserted that if Virginia officials refuse to go along with the Supreme Court's integration edicts, Federal troops and funds should be utilized to integrate the state schools. All this, of course, was calculated to set him in solid with his Negro constituents and the NAACP crowd.

Having relieved himself of this revolting bit of drivel, Roosevelt next turned his attention to currying favor with the hordes of fanatic Zionists who comprise a sizable portion of his constituency in and around Hollywood's Jew-infested Fairfax district. For their benefit he introduced a joint resolution in the Congress which would authorize the Secretary of the Treasury to purchase $60,000,000.00 in Israel Bonds as part of a government "trust fund." Roosevelt was quoted by the JEWISH POST (March 2) as saying that **. . . "the $60,000,000.00 figure was selected as a symbolic tribute to Haym Solomon, since it represented the sum that would be due him today for his financial contributions to the Revolutionary War."**

SIGNIFICANCE: Although Roosevelt's rabid mouthings accurately reflect his own depraved political philosophy (as well as that of his mother, Eleanor Roosevelt), both his proposal to send troops into Virginia and his plan to purchase Israeli bonds with U.S. Treasury funds are undoubtedly inspired by practical considerations rather than by sentiment.

This is readily apparent when the nature of his constituency is understood, for Roosevelt's 26th district is a gerrymandered hodgepodge of Negroes and Jews the like of which cannot be found anywhere else in the state. It consists of two sections connected by a narrow neck. The western section, as previously noted, takes in the Hollywood and Fairfax areas, heavily infested by Jews, most of whom are ardent Zionists (i.e. Israeli nationalists). The eastern section encompasses the Central Avenue Negro district — which explains his passionate desire to send troops into the South to enforce racial integration in the schools . . .

The long and the short of it is that Jimmy Roosevelt sits in the U.S. Congress as a representative of these organized minority groups. There is, admittedly, some question as to whether his primary loyalty is reserved for his Negro constituents, or for organized Jewry. But there is no question whatever on one score: he in no way represents the American people, or any part of them, in the House of Representatives.

HOLLYWOOD

(Continued From Page 2)

extermination camp." Very touching, but strictly a hate fabrication intended to keep alive the vicious myth that the Germans deliberately exterminated Jews—a myth all the more despicable when you remember that a large percentage of Germany's pre-war Jewish population now resides in the U.S.A. Come to think of it, an awful lot of them live in Hollywood . . .

THE LONG HOT SUMMER (20th Century-Fox) is one of those pictures whose chief purpose is to vilify white Southerners as low, ignorant, vulgar "Tobacco Road" characters. The film is adapted from the writings of Wm. Faulkner, who like Erskine Caldwell and others of his stripe have made a lucrative profession out of portraying Southerners as debased, venal degenerates distinguished mainly by their erotic sex behavior and racial discrimination against Negroes. LONG HOT SUMMER taken by itself would not be particularly significant, but seen as a part of an over-all pattern it stands out clearly as a nasty little propaganda picture whose primary function (besides making money for its Jewish producer, Jerry Wald) is to heap ridicule upon the white South. Star of LONG HOT SUMMER, incidentally, is Orson Welles, who adopts a phony, grotesque Southern dialect for the role. For the record it should be noted that Welles created quite a sensation in the Negro press a year or two back. Seems he developed a steamy passion for the negress, Eartha Kitt, while playing a part with her . . . The details are a bit too revolting to repeat here, but since Welles has set out to make propaganda against the South, we thought the matter should be mentioned . . .
